For Class A Region Basketball, after all expenses are paid, any profits excluding sponsorship, media and T-shirt income will be divided equally between the Association and all participating schools. (Profits used to be figured after team payments, therefore 7.5 participants is used). Play-in games are considered one day tournaments and are not considered in income sharing.

When Class A State Music has multiple contests, mileage to the contests will be averaged and inserted into the formula. Total participants not to exceed 50.

Shown below is a chart that shows the revenue sharing points earned for an event:

Plan Specifics

1. Following each region or state NDHSAA sponsored event, the number of participants from each participating school will be determined.
2. One-way mileage will be used in the formula and will be determined by using MapQuest.
3. The NDHSAA Board of Directors will determine the desired Reserve Balance.
4. After all revenue is received, expenses paid and reserve maintained, the remaining funds will be distributed to qualifying schools.
 - a. Remaining funds will be divided by the total accumulated points throughout the state to determine the value per point.
5. The value per point times the individual school total will determine the school's payment for the year.
6. Payments will be made to schools prior to June 30th.

Approved by the Board of Directors, June 2005
